

WRANGELL EAGLE

Vol. X Ed. 6

Wrangell Institute, Wrangell, Alaska

April 1964

Last Saturday we played basketball in town. We did lay ups, passing drill, and we shot around. It was fun to play basketball in the big gym. There were lots of boys on the town team. The little team won one game on our side.

The little team played first and after we played we changed and watched the other team.

After the game we had some pop and then we went back at five minutes to ten. Then we went to bed.

I hope we play next year.

....Frank Jones

We went to a basketball game Saturday, March 28th. Our team won the first game. The little ones played in the first game. The middle size ones played in the second game. The third game players were middle size too. But they did not make it. Our team did not win the last, but we had one more score to win the last game.

....Aurelia Afcan

We had a movie about "Hopalong Cassidy of Bar 20." It was a good movie. We had another one about "G. I. Blues." Everybody went to see it I am going to movies on Saturday and Sunday too. It is about Cowboys. I like to see movies about Cowboys, but if we cannot go to the movie I will not go.

....Winifred Demientieff

On March 23rd we had a test. I was the highest on the test. I tried my best. I had a good grade.

Willie had 27 on the test last time. Bernice had 27 too.

....Debra Deacon

There has been a little delay in the coming of spring. Robins, kingfishers, wrens, geese and chickadees have been seen.

The baby eagles played three games in town. They defeated the Baby Wolves in the first by four points. Louie Lee was high point man.

We dyed Easter eggs many brilliant colors for the Easter egg hunt.

On Saint Patrick's Day we saw many amusing things. People got frequently pinched.

Rodney and Franklin have made occasional trips to the dentist. Dental care prevents toothaches.

Rooms A, B, and C attended the Cub Scout program. The costumes were colorful. Donald Stickman was a blue jay. Rodney Deacon was Smoky the Bear. Mrs. Johnson, the Den Mother, made the costumes.

....Mary Thompson

When we were hunting for eggs, I found six eggs, but I gave two away. I found one with a red flower and it had a play nest on it and there were some play eggs in it.

I wonder how come the matrons hide the eggs instead of the Easter Bunnies? Oh, I know why, because the Bunnies are scared of people and they are scared to come out.

We are going to have a program in May but I don't know what day it will be.

I was drawing a Robin but I didn't finish it, but I will finish it soon.

....Anna Williams

APRIL, APRIL, LAUGH THY GIRLISH LAUGHTER;
THEN, THE MOMENT AFTER, WEEP THY GIRLISH
TEARS!

SECOND PLACE POINTS FOR EAGLE

March 20, 1964

Fairbanks Daily News-Miner, Friday, March 13, 1964 - 3

Two Student Newspapers From Alaska Win Honors

NEW YORK (AP) — Two Alaska student newspapers won awards in this year's Columbia Scholastic Press Association judging.

The "Channel Light," published at Mt. Edgecumbe School, took first place honors in the Senior High School offset, 501-750 pupil class.

The "Wrangell Eagle," a duplicated paper published at Wrangell Institute, was awarded second place points in the Elementary School class.

More than 1800 student publi-

cations from across the nation entered the contest. Awards are made on a 1-1000 point basis, with medalist, first, second, third or fourth place given to each entry.

Editors, Wrangell Eagle
Wrangell Institute
Wrangell, Alaska

Dear Kathleen and Frieda:

I recently saw that the "Wrangell Eagle" received high national honors for school newspapers. The staff at the Bethel Office wish to congratulate you, the "Wrangell Eagle" staff and your advisors. It is an excellent newspaper and we look forward to receiving it in Bethel.

The high rating which the "Wrangell Eagle" received is indicative of the kind of education you have the opportunity to get at Wrangell. I know you take pride in this, also.

Congratulations to you and the fine Wrangell paper!

Sincerely yours,
John F. Gordon
Area Field Representative

Editor

The Wrangell Eagle
Wrangell Institute
Wrangell, Alaska

Dear Editor:

I am pleased to hear that your school paper, "The Wrangell Eagle," received national honors in the Columbia Scholastic Press Association judging.

My congratulations to all who contributed to winning the honor. As a past newspaperman, I can appreciate the effort involved.

Cordially yours,
Ernest Gruening, U.S.S.

Miss Frieda Shanigan
Editors, Wrangell Eagle
Wrangell Institute
Wrangell, Alaska

Dear Kathleen and Frieda:

I note with interest that the WRANGELL EAGLE was awarded second place points in the Elementary School class by the Columbia Scholastic Press Association in this year's contest.

This is an honor which reflects upon you, the editorial staff of the paper, the student body, and the Wrangell Institute. My sincere congratulations go to each of you. I hope the same high standards will be continued for your school paper so that the WRANGELL EAGLE can maintain and even raise this high position in school publications.

With best wishes.

Sincerely yours,
L. Madison Coombs
Assistant Area Director (C.S.)

OFFICE NOTES

PRINCIPAL.....

First row: Tanya Oskolkoff, Ginny Breese, Pam McCormick, Mr. Whitney. Second Row: Evi Erickson, Mary Lou McCormack, Madeline Stella, Marilyn Wickman. Third row: Jack Oskolkoff, Nancy Dow, Dorothy Dow, Roger White.

Eleven Wrangell High School students were guests of Wrangell Institute on March 26th. These students belong to the Future Teachers Association and came out to visit our classes and see our school in operation. After spending half a day visiting our classes and students, the Future Teachers had dinner with our student body in the dining hall.

Mr. Whitney, the sponsor of the Future Teachers Association said his group was very impressed with our classrooms and hopes that next year they can spend a whole school day with us. We are happy to have guests and will be looking forward to their visiting us again.

All of the records the Student Council ordered for the student body have arrived. The last two records are: "It Hurts Me" & "Kissin Cousin" by Elvis Presley; "Blue Velvet" & "Is There a Place" by Bobby Vinton.

The Student Council hopes that all of the students have enjoyed having these new records for their listening and dancing pleasure.

Arlene

Yearbooks are on the way. Word has been received that our yearbooks have been shipped and will be arriving soon. All students will be notified when they can pick up their yearbooks. Mrs. Fisher has a complete list of all people who have yearbooks reserved for them.

The fourth and last quarter of school began on March 17th. Now is the time to make up your mind to study hard and not to let spring fever interfere with your school work. School will not be over until the 18th of May.

On March 13th & 14th students in Rooms E, F, G, H, I, and J were given the SRA HSP test. The results of these tests have been received and all students have completed making their profiles.

On March 23rd & 24th students in Rooms A, B, C, D, E, F, and H completed their Metropolitan Achievement Tests. Congratulations to all students and teachers for the fine way the testing program was completed.

SUPERINTENDENT.....

I am happy and most thankful to report that all of our boys and girls at Wrangell Institute are well and safe. Last week's earthquake that took so many lives and caused so much spoilage was felt only a little bit in Wrangell. At no time were the children in any danger.

We were all saddened when we heard three of our students had lost parents or close relatives in the tidal wave that hit Chenega. Our hearts are heavy for these students and their families.

Deer eating grass on the school lawn and hungry robins searching for worms are among our first signs of Spring at Wrangell Institute. These welcome friends also remind us that the girls and boys will soon be going to their homes for the summer. Lists of students are already being made to send to the airlines. If any family has moved to another place we would like to know the new address very soon. The children

Wrangell Eagle, April 1964

GROUP E

Room E has been studying poetry in the language class. Many of us wrote some of our own poetry. Here are a few of our poems.

DOG SLED

I had a big dog sled,
But it belonged to Ned.
I wish it was mine,
But it was made of pine.
I used it for one day,
And then it turned to clay
...Tony Susook

Jimmy Lee disappears,
Into a can of pears.
...Emily Adams

He stole a dime,
And found himself in crime.
...Alice Brown

GOING HOME

We are going home in May.
That is the very big day.
If we stop in Nome,
I'll want to go home.
...Irene Susook

SLED

I'd like to ride in a sled,
But I can't do it with my
head.
The winter is gone in May
And I like to sit on hay.
...Lottie Sheldon

VARIOUS POEMS

A boy was going to play a
game,
And met a boy who played
the same.

A boy got his sled,
And then he fled.

She gave a girl a dime.
She knew she wasted time.
...Onesia Yohak

MR. RYLL

A man named Mr. Ryll,
Sat on a great big hill.
He lost his very beat hat.
He found it on a rat.
(Written by the class)

FRED

Fred ate bread in his bed.
He got red and layed dead.
...Raymond Titus

THE GAME

Although we lost the game,
We're the ones to blame.
The team was almost dead,
When it was time for bed.
...Alvin Williams

THE OLD GAME

There was a very old game,
It was a shame,
But there was no one to blame.
There was a beautiful dame,
Who could not aim in this game.
...Innokenty Lestenkof

BILL

A boy named Bill,
Had a pill.
But he was dead,
On a big sled.
...Mary Moxie

JOKE

Ann : Myra why does a cow say
"Moo-Moo"?
Myra : What part of the day
does he say it?
Ann : Let me see. Oh, around
bedtime.
Myra : Oh, it is always trying
to warn me not to forget
to put my favorite night-
gown on--my moo moo.

BOOK REVIEWS

Kathleen Korpusik

ONE SUMMERS SECRET, by Dola de Jong (Chas. Scribners Sons): It is about a teenage girl, Laura and her father. They are on a vacation at Long Island. There were several other houses and theirs in the

middle. At first Laura didn't know any kids her age until a boy invited her to a cook-out on the beach. There she met other boys and girls.

She kept house for her father because her mother went to Sweden. She didn't want to go out but her father was writing a book and told her to go out and have some fun.

There were many interesting things that happened in the story. One of the most interesting things that happened in the story is about a ten year old boy and a run-away Negro girl. He gave her food, he built a little hide-out for the girl to stay in and that is where Laura found her. She accidentally found her when she and a friend of hers were walking along the beach.

The story was very interesting and I'm sure you would agree with me if you would read it.

.....Eliza Simon....

FLORENCE NIGHTINGALE, by Margaret Leighton (Grosset & Dunlap): Florence was born May 12, 1820 in Florence, Italy. At about the age of eighteen she decided to spend her life caring for the sick and poor, although her parents didn't want her to. She attended a nursing school in Kaiserswerth, Germany 1851.

As she went on with her work she was made superintendent in a London hospital in 1853. Later she left London during the Crimean War and set out with thirty-eight nurses to aid the sick and dying men.

She returned and became ill but refused to give up her work. When she recovered she opened the Nightingale school for nurses in England. After about four years of teaching she died on August 13, 1910.

There were many other interesting things in this book that I am sure you would enjoy if you would read it.

GEOGRAPHY TOUR

Earlier this month, our geography classes went on a tour. Just the three freshmen classes went as our classes were studying about saw mills and lumber. Mr. Kuckuck, our geography teacher decided to let us see how a real saw mill was operated.

The saw mill is located in the town of Wrangell, five miles from the Institute. We left in a bus during our third period class and got back just before lunch.

We were taken through the mill by guides. The first place we toured was the boiler room. The sawdust was used in the boilers to make steam. The steam was used to make power for the machines and saws.

It certainly was interesting to many of us as we've never seen a saw mill or how they are operated. We saw how the logs were brought into the mill and cut. They passed through man saws and were cut into many shapes and sizes. We also saw how they were graded and marked.

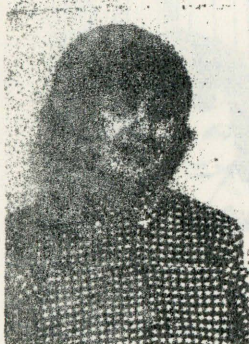

Then our guide took us to the Japanese ship, on to which the lumber was being loaded. This lumber was already graded and cut.

It was one of the biggest boats I and many others have been on. There were Japanese pictures and writings on the walls. Their customs seemed a little different from ours, but in ways they seemed alike.

The freshman classes thoroughly enjoyed the trip and wish to thank ever one for making it possible for us to visit the mill.

In 1631, at Salmon Falls River in Maine, the settlers started what was probably one of the first sawmills driven by water power.

WHO'S WHO?

Henrietta Johnson

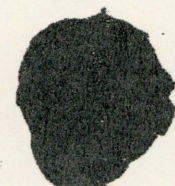

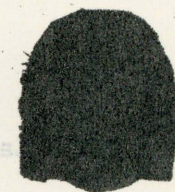

This group of people came from Alaska. They are helpful, and very understanding. They see that the rules are kept and if not they decide how much punishment should be given. They improve the ways here to make things easier for everyone.

This group has Arnold Garner's "head", James Norton's "eyes", Larry Evanoff's "hands", Kathleen Korpusik's "skill", Robert Adam's "feet", Frieda Shanigan's "time", and Robert Nelson's "feet." This fine group of people have been making this school year a very pleasant one.

ALL-STARS GET BEATEN BY EAGLES

Following the intramural Basketball tournament, in which the warriors came out as champions, the Malamutes came in second. The all-stars of the tournament, picked out by Mr. Brown, challenged the Eagles to a game. In the First Quarter the B squad started against the all-stars. The all-stars got a quick lead. In the second Quarter the A squad came in and racked up 12 points to the all-stars 1 point. The game ended with the Eagles a good 20 points ahead.

BABY EAGLES LOSE TROPHY

The baby Eagles that Mr. Brown, Coach of the Eagles was training, played 6 games to try to win the basketball trophy with little league champs on it. In the gym out at the Institute the Baby Eagles won 2 out of three. In the town gym they won 1 out of three. In the last deciding game the Baby Eagles lost by a score of 19-20. When the third Quarter ended the score was 12-20.

TRACK TRAINING STARTS

Mr. Brown called for all boys interested in track. About 30 boys turned out. Such events as broad-jump, high-jump, cross-country, and many dashes will take place. Practice days will be on Mondays and Thursdays. Field day this year, when the events will be tried, will be on May the 8th.

My only ambition is to finish high school and become a secretary.

Betty Kavairlook

My only ambition ever and is always, is to become a teacher. I want to finish high school and even take a few years of college, that is if I get to go.

Eleanor Simon

I intend to become a nurse after I finish high school. I also intend to work in my summer vacation so I will be able to travel all around Alaska.

Olga Takumjenak

My ambition is to go on finishing school.

Florence Kenezoroff

When I complete my high school and graduate I will try to be an carpenter at my home town.

Charlie Kashatok

My ambition in the near future, that's coming, is to become a restraunt waiter after I get a high school degree or if I plan on going, I'd like to have some college education and be a clerk for Wien Airlines, or maybe a housewife.

Blanche Jones

My greatest ambition is to become a nurse and work at Mt. Edgecumbe Hospital. If I do not suceed I would like to become just an ordinary housewife and stay at my hometown with my parents.

Vivian Duncan

More About OFFICE NOTES

dren are anxious to see their families and
are counting the days!! School is out May
18th.

DEPARTMENT HEAD GUIDANCE.....

There is a story about how the bear lost
his tail. At one time the bear had a long
tail like a dog. One day while out hunting
fish, the bear sat down to rest for a min-
ute. When he started to get up he found
that his tail was stuck in the ice. He tried
and pulled and tugged with all his effort,
but his tail would not come loose. Finally
he gave one big pull. Suddenly he was free,
but his tail had broken off, leaving only a
very short tail. Seeing this short tail in-
stead of the long one the bear said "It won't
be long now."

This same expression applies to our school
year, "It won't be long now." It won't be
long until all of the students will be leav-
ing to go home for the summer. It won't be
long before school is out for this year.
With just a little school left, everyone
should try extra hard to do their work in
school and in the dormitories. In these
last remaining weeks of school we really
need to be on the ball. Don't forget that
these last few weeks count too.

Wrangell Eagle, April 1964

GROUP F

HOME ECONOMICS PROJECTS

When we first had Home Economics we made aprons. It took us about two weeks to make the aprons. We learned how to use an electric sewing machine. We also learned how to hem and sew a band on.

After we finished the aprons we made skirts. It took us a month or more to make the skirts. We learned how to gather the skirt and sew snaps on and learn the zipper should always be on the left side.

...Margie Painter

The girls in Room F have made aprons, skirts, biscuits, and cakes, the past year in Home Economics. Miss Stephens is our teacher. Once she told us to chose a number from one to twenty. The girl who chose the number closest to the number Miss Stephens had chosen would have a breakfast while the other girls had juice and biscuits. She had the number thirteen in mind and I chose the number fourteen. So I ate cereal, biscuits, butter, eggs, and juice.

...Margaret Elachik

EARTHQUAKE

I suppose you all must have heard of the earthquake. Some pupils believe the Valley of 2000 Smokes erupted. It all happened about a week ago. My brother was in Anchorage when it happened. He was in the A.N.S. Hospital.

I just wonder how he felt. Probably got a little shook up. From what I heard, Kodiak Island was under water. It was the most disastrous tragedy in Alaskan history. Seward and Valdez were wiped out and it struck the hardest in the downtown district of Anchorage.

I hope we don't have any more earthquakes in the future.

...Marius Hofseth Jr.

OPERETTA

The operetta members were in the gym on April 6th. At the gym we practiced the

Operetta. It was fun putting the Operetta together. I am sure a lot of students will enjoy it, when it is presented.

...Florence Kenezuroff

ARCHERY

Last Tuesday we had archery in the gym. First Mrs. Curtis showed us how to use a bow and arrow, and how to shoot a bow and arrow. She showed us how to take the arrow out of the target when we practice. She told us to pull the arrow fast out of the target.

...Natalia Jackson

EASTER ACTIVITIES

On the 29th of March after lunch we went to the movie. After that we looked for colored eggs with prizes on them.

Some boys and girls didn't find any eggs. One girl found an egg under the merry-go-round that had a prize on it. It also had ten cents on it. She got popcorn for a prize.

Two days before we hunted for eggs, we dyed three eggs and ate one.

...Hannah Lott

TRACK

The boys that wanted to sign up with Mr. Brown for the track meet at the beach all went down there. Mr. Brown showed us boys how to warm up before we ran about three miles. After we boys ran he told us we'd meet on Mondays and Thursdays.

...Fredrick Tukrook

FOR "MAY" ALL SOURCES ARE ASKED TO
TURN NEWS REPORTS IN TO THE EAGLE
EARLIER THAN USUAL. SCHOOL CLOSING
MAKES THIS NECESSARY.

GROUP H

AFOGNAK

Afognak is a small village not far from Kodiak.

In Afognak there are about 100 to 150 people. They make a living by fishing salmon in the summer and some of them crab fish in the winter.

Some people have their own vegetable gardens in the summer. Some of them grow potatoes and many other vegetables.

There are many wild berries in the summer time such as high bush blueberries and salmon berries. There are others which we always pick to can or make jams and jellies from them. They also make good pies and muffins. There are many things you can make from them.

There is a landing strip in the village but it is very seldom used. Most of the plane land in the water.

A community hall has been built where bake sales, dances, bingo and movies are held. This building was completed last fall.

Afognak is a nice place in the summertime.

Ann Gunderson

GOING HOME SOON

The days here at Wrangell Institute are going real fast and before we know it we will be home with our families again.

About the third week of April we will start packing. First the little girls will pack and then probably the older girls will be next. Everyone is excited and they keep counting the days. Each time it gets less and less.

I hope everyone here enjoyed the school here as much as I did and making new friends from all over Alaska. Some of us will go to Edgumbe or Chemawa, and others will come back to Wrangell Institute and we will see each other again.

I hope you all have a nice trip home.

Anastasia Kashevarof

Every Thursday at 3:00 p.m. Room H has survival lessons. Each one of the nurses from Health Center take turns giving the lessons.

Lucy

The last one to give a lesson was Mrs. Wright who gave us lessons on nursing care of the sick and injured. Such as how to care for abscesses, boils, chills, convulsion and diseases which people can catch easily. We are given these lessons in case of emergencies in our villages where there is no doctor or nurse. In a case such as someone drowning or someone is suffering from bad burns we will know what to do. It is also helpful for those who wish to be nurses in the future.

Later on we will have tests to determine what we have learned and we hope to do good because it is up to Room H as to whether we will have these survival lessons next year.

Vivian Duncan

ORAL REPORTS

Can you give an oral report? This past week the students of Room H have been giving oral reports in front of the class.

Some of the oral reports given were very funny. Eleanor Simon told of when she first shot a gun. She started out trying to shoot some birds, but she ended up shooting three holes in a fish.

Other reports given were about how things were done in some villages. Lillian Shavings told how they herded reindeer in Mekoryuk.

Still other reports were of home experiences Robert Adams told of when he rode on the back of a kayak while one of his friends rode in the cockpit. He mentioned that the kayak turned over and, at the time, neither his friends nor he knew how to swim.

We are going to give more oral reports next Monday. We only hope we improve in the next oral report.

Roslyn Jones

Wrangell Eagle, April 1964

TRACK

Mr. Brown has started track here at Wrangell Institute. This is to get ready for track in high school if we take it up.

On Monday he took us for a short run to get us started. He gave us some pointers on how to start and end. We made our run in fifteen minutes and fifty five seconds. He said it was good because we were only running slow. Some of us got sore from the run, but we enjoyed it just the same.

We are going to have cross country runs, fifty-yard dash, quarter mile, etc. I hope everyone will enjoy track. I know I will.

Frank Kellner

EASTER BACK HOME

Easter is the time we celebrate the day when Jesus rose from his tomb. Everyone is happy when this day comes. They get ready a couple of days and make bread.

When Easter comes, all of a sudden at twelve o'clock midnight the church bell rings and the noise of the guns are heard, then we go to church and have church all night. We have communion, only when the priest is there. As the night turns to daylight, church is over. Then we go home and get ready for a feast. All day the church bell rings, and people who were in the church sleep.

When darkness comes again, everyone is tired but happy.

Lucy Nicolai

INCOME TAX

Last week and this week we students in Room H have been studying how to fill out an income tax report and how to file one. When we first started I couldn't understand it, but when Mrs. Dow, our teacher, explained it well to us I understood what it meant.

We filled out a few of the 1040's which is the short form. It was lots of fun although we filled in wrong blanks and made some mistakes we were still keeping up with our teacher. Now we are young and we don't need to fill out any of these, but later on

Lucille

when we grew older we'll have to use them.

James Norton

SPRING IS HERE

Spring is finally here in Wrangell Institute. The snow is melting away, after all the snow we had in March. The robins, and blue jays and some other kinds of birds are here flying around the buildings. We are all glad that spring is here, and we are even more to be going home next month.

Lucille Tevuk

WRANGELL INSTITUTE

Wrangell Institute is a very beautiful place to go to school. All the students like it here. The tide goes down very low. From the beach we can see the whole view of Wrangell Institute. To the left side is the North Staff House, next the Boys Dorm, next the school building, next the Girls Dorm, and the last is the South Staff House. Down in front of the school there are three tall trees. All the roofs of the buildings of Wrangell Institute are green and the walls are white. The climate's good and it is not too cold in the winter. In spring there are lots of robins here.

by: Mischa J. Auliye

STUDY OF THE SOVIET UNION

For the past few weeks Room F has been studying about the Soviet Union. We have learned that the people of the Soviet Union do not have as much freedom as we do. The Communists rule over them. They tell them what to do and what not to do. They do not let them worship the God they want. If they do then they will deny them some privileges. We are learning more and more everyday.

EASTER

The Easter egg hunt proved to be an exciting hunt. Before we searched for the eggs, we had sports movies. During the movies it started to rain, but we still hunted for eggs anyway. All I had was three but I suppose that was enough because some didn't have any.

...Amos Weyapuk

THE EASTER EGG HUNT

Easter was on the 29th of March, and it was the day we hunted for eggs on the campus. First thing in the morning, after we woke up, dressed, and washed, we went to the dining hall to eat, then we went to our Churches to attend Easter services. The kids who were in the Catholic group, went to Church late at 11:00 a.m. The reason for this was that Father Mansky was at other places having Masses before he came here. After all the Church services were through it was time for luncheon, so we went to eat. Then we went to the movie in the gym, some of the staff members hid some eggs for us to hunt.

The little kids hunted eggs on the front yard and the bigger ones on the back yard.

I didn't find any eggs, not even one! Some of the other kids didn't find any either.

... Olinka Nicolai

HOW WE CELEBRATED EASTER

We had a very nice Easter here at Wrangell Institute. We attended Church services from 9:00 A.M. to 10:15 A.M. Then we did our details and started to get ready for dinner. We had a big dinner. After dinner we went to the gym.

There was a sports reel and a parachute rig to see. After the movies we had an egg hunt. Olga Takumjinak won the prize for finding the egg that was marked. The eggs were hidden all over the campus. Many of the girls and boys did not find an egg. It was raining so some quit looking. At supper everyone had an egg. After supper we went to the movie. The name was "Cassidy

of Bar 20" It was a very good one. Then we went to the dorm and Mrs. Moritz gave us some Easter treats.

CHOOSING DETAILS

Last month the girls got to choose the detail they wanted to have for the month of April. They wrote the detail they wanted for first choice. Everyone was happy with their new details.

We do our details three times a day. After breakfast, after lunch, and before going to bed.

INTRUMURAL BASKETBALL

Last month on March 12th to 15th the Institute had an Intrumural basketball tournament, and all the teams tried their very best. The following were the teams: Warriors, Malemites, Wolves, Vikings, Hawks, and Chilkats. The champions were the Warriors and the runnerups were the Malemites and third place were the Wolves.

A week after the tournament the all-stars were picked out of each team. The all-stars from the Warriors were: William Anderson, Martin Lee, and Ronald Pitka. Malemites: Charlie Lee, Fredrick Tukruk. Wolves: Robert Lane, Evon Petluska and William Klanott. Vikings: Edward Barr, Arnold Garner. Hawks: Earl John and the Chilkats: Franklin Hotch. Then we played a game against our A squad and they beat us, but it took their first five to do it.

HOME PREPARATION

The month of May is just around the corner, and we will be going home soon. We will be packing up the last two weeks of April, which is two weeks from now.

There is to be no ordering from any catalogues after April 5, so that they can come in time and not after we are all packed up.

Students, also have been filling out applications to one of the three schools which they prefer or best meets their educational needs. They first must get their test results before applying.

We are happy to know that we will be going home soon but will miss our friends as well as activities that we have had the whole year.

We are all looking forward to seeing each other again next fall.

Joan Nayokpuk

GIRLS' BASKETBALL GAME

On March 11, the Key I and Key II girls went to town to play in the town gym. We left about 6:30 and we played until 8:00. Our referees were Mr. and Mrs. Curtis.

The girls picked their own A-squads and B-squads. On the squads were these girls: A-squad, Key I- Frieda Shanigan, Carol Curtis, Lucille Hopson, Eliza Simon, Cora Moses, Dorothy Larionoff, Susan Tabios, Olinka Nicolai, Violet Charles. The B-squads, Key I- Kathleen Korpusik, Alice Fields, Barbara Swanson, Esther Ambrose, Arlene Carlo, Laura Woods, Doris Oksoktaruk, Eleanor Eningowuk, and Kathy Kimoktoak. A-squad, Key II- Isabel Hopson, Betty Kavairlook, Evelyn Tuzroyluk, Myra Vlasoff, Janet Jensen, Henrietta Johnson, Nellie Gallahorn, Jo Ann Abalama, the B-squad, Key II- Jenny Ludecker, Karen Selanoff, Frances Duncan, Ellen Williams, Agnes Michael, Delores Moto Olga Takumjenak, Ella Takak, and Nora Johnson. Mary Patrick, Helen Ningulook, and Joan Nayokpuk were our score keepers.

The B Squad played the first game. During the first quarter the Key II team was ahead, but the Key I girls

won the game.

The A Squad played the next game. The Key II girls started playing a fast game but they slowed down and the Key I girls won again.

Even though the Key II teams didn't win they put up a good fight. They also showed good sportsmanship. YEA! KEY I GIRLS!

MOVIES

Last Sunday we had a movie about "Cassidy of Bar 20". Also two Sundays ago we saw "G.I. Blues" starring Elvis Presely. It was the best we have seen so far and the kids enjoyed seeing it a lot. He sang songs like, "Wooden Heart," "G.I. Blues," "Frankfurt Special," and others.

We hope to see one of Elvis Presley's movies again.

...Agnes Michael

FIELD TRIP

On the 11th of March the freshmen classes took a field trips to the Wrangell saw mill. When we reached the mill Mr. Lanstrom started to show us around. First we went to a room where there were three boilers, and on the other side of the room was a pile of saw dust and chips for the boilers fuel. Than we went to the place where they cut lumber. They first cut the lumber with a band saw, then with a ripping saw they cut them the size they want them to be. After we watched them for a while we went to see the generators. After that we went outside to go see the Japanese ship. They took us aboard and we went to the control room where they steer the ship and we looked through the radar telescope. After this we went on the deck to watch the long-shoremen put lumber into the ship.

ARCHERY

In P.E. class we have started Archery. On the first day, Mr. Curtis, our P. E. instructor, talked to us about the rules in handling the bow and the arrows. Then he showed us the proper way of shooting arrows. After he talked about the rules, he let us each shoot an arrow. Few Boys didn't hit the target on the first try; instead they either hit the mat we used to protect the arrows from breaking against the wall or their arrows slid on the floor.

The next time we got the bows and arrows and went by the boat house to practice. It was fun to shoot bows, but we broke about twelve arrows. We are looking forward for our next P.E. class to shoot bows and arrows again.

...Norman Menadelock and Robert Lane

Last Tuesday, March 31st, the Key II boys started on Archery in P.E. We had our first lessons in Archery in the gym. Mr. Curtis showed us the equipment for equipment for Archery. He also told us what Archery was used for long ago.

Most of the boys are eager to learn to use the Archery equipment. So we hope that we will have Archery for quite a while.

...Carl Seetot and Robert Nelson

FUTURE TEACHERS

Last month, a small group of future teachers visited the campus. They were several students from the Wrangell town.

They visited the classes for a while. At dinner time, they were guest at the dining hall.

...Carl Brown...

OPERETTA

This spring some time there will be an operetta put on by some students.

These students were assigned parts.... I'm not telling you who they are.....but I am sure they are working hard to get this play very well put on. I think this play ought to be quite an experience to some students.

I'm sure those who are in the play are rehearsing their parts and trying to learn them by heart. Hope you all enjoy it and think something of it.

...Steve Mann...

APPLICATIONS

The older students of Wrangell Institute have been filling in applications for other boarding schools. Some of the students may go to Mt. Edgecumbe or to the Chemawa Indian School in Oregon. Some of the students may also be coming back here to the Institute.

The Freshmen students filled applications for Mt. Edgecumbe school on March 25. Some students from Room E, F, and H filled in applications for Mt. Edgecumbe school too.

I hope they all go back to school this fall.

...Evelyn Tuzroyluk...

EARTHQUAKE AND TIDAL WAVES

The results on the tidal waves and earthquake according to the latest news are as follows: The earthquake was one of the world's largest. It almost ruined our largest city, Anchorage, as well as Seward, Valdez, and the main street in Fairbankd. The tidal wave struck Kodiak, Cordova, Valdez, Chenega, Afognak, Old Harbor, and Crescent City down in Calif. There are 50 missing and 22 dead in Kodiak, 30 died in Valdez and 26 dead in Chenega. They estimated 179 dead all over Alaska, and \$500 million worth of damage.

There were about 80 people in Chenega, and with 26 dead, there is a possibility that the remaining 47 people will not build it up again. All that was left of the left of the little village was the schoolhouse, which is located on a hill.

The government is doing its best to replace homes, but it cannot replace our friends and relatives, who were lost. We can just wish for the best.

HIKE TO PARK

Last month of March we went hiking to the park there were about 20 or more girls and about the same number of boys. Mr. Ryll and Mrs. Churchill were our guides.

We started hiking about one o'clock in the afternoon. The weather wasn't too suitable for going on a hike, the wind was blowing and it was a bit cold.

When we finally reached the park it started to snow and there they had a fire burning. About 5 minutes later after reaching the park Mr. Ryll gave out the lunches. After eating our lunches we started back to the campus.

It was a n 8-mile hike going and coming back to the campus. I enjoyed going on that hike and I'm sure the rest of the students who went on that hike enjoyed it also.

Helen Ningeulook

SEVEN MILE HIKE

Last Saturday, March 28, 1:15 we went on a hike to the end of the road. There was sixty boys and girls altogether. Some of the students ran ahead and some took their time. Some of the slow kids got picked up by the bus. When we reached the end of the road we had a snack of apples, cookies, and crackers with peanut butter. We came back on the bus. All the students were tired.

Charles Sagoonick

SALUTE

The Wrangell Eagle salutes David Sturdevant of Wrangell Public School who has been notified of his acceptance at the Philip Exetic Academy in New Hampshire. David's acceptance was based on achievement, purpose, location, and recommendations.

David rated highly in a test taken by students across the nation.

Dorothy

Dear Editor(s) and Staff,

I am writing to you to let you know that I have enjoyed getting an "Eagle" from you each month.

Having been on the staff last year, I particularly like to read the Sports News and the articles from the different classrooms.

Congratulations for putting out a very good newspaper this year. I will look forward to seeing some of you students here at Mt. Edgecumbe next year.

Sincerely yours,
Gilbert S. Barr

SPECIAL ASSEMBLY

On Thursday, April 9, 1964, at 3:00 p.m., there was a special assembly program presented in the gym. The GOLD NOTES from Juneau entertained us pleasantly. Playing for one hour, the group was quite interesting. A number of comic gestures brought laughs from the students.

As good as the program was, it would have been better if there had been no chairs in the gym. A little dancing would have been just the thing.

NATIONAL LIBRARY WEEK APRIL 12TH - 18TH

From the records, Wrangell students have read about 2360 library books this year. Taken from the records of 210 students, this gives us an average of about 11 books per student. Two students have read over 60, two over 40, and 40 students have read over 20 books.

The breakdown by Groups is as follows:

GROUP J	490	GROUP G	300
GROUP I	390	GROUP E	300
GROUP H	380	GROUP D	260
		GROUP F	240

About 800 of the total books have books of non-fiction. The remainder fiction.
